University of Essex.  
PGD, Financial Economics,  
2016- 2017.

Imo State University.  
BSC Economics, 2008- 2012.

## Summary

Highly motivated frontend web developer who has a passion for learning and is a fast learner, passionate about web functionality and is eager to enhance my skills as a frontend developer by building elegant projects. I am seeking to launch a career building web-based technologies and services.

## Recent projects

- To-Do web app: I created this responsive web app with HTML, CSS and JavaScript. This can be assessed on <https://thatbrendan.github.io/todolist/>
- Dad jokes web app: This web app, was made with HTML, CSS, and JavaScript. I applied asynchronous JavaScript in this app whilst fetching an API. This can be assessed on <https://thatbrendan.github.io/Dad-Jokes/>

## Experience

*May 2021 - Present*

### **Self-Taught Web Developer**

- Designed and implemented frontend interfaces to create web pages and applications. Built functional web pages for mobile-first and written code that adheres to standards and best practices.

*2019 - Present*

### **Complaint Case Handler • Automobile Association LTD.**

- Ensured that regulated complaint are responded to promptly whilst providing customers with a fair outcome.

*2018 - 2019*

### **Customer Advisor • Automobile Association LTD.**

- Guaranteed existing customers received a positive experience when they contacted to discuss membership enquiries.

*2015 - 2016*

### **Support Officer • Zanibal.**

- Worked closely with the software developers to test and implement new software updates whilst satisfying client requirements.

*2015*

### **Retail Sales Executive • Fidelity Bank.**

- Offered advice to existing customers and rendered advice to Small and Medium Enterprises (SMEs) with regards to short-term loans.

## Soft Skills

- Able to get on with people from all backgrounds and cultures.
- Dedicated to developing my knowledge and skills.
- Attention to details, getting into details to establish the root cause.
